DISCLAIMER: This report has been prepared by the USDA/Foreign Agricultural Service in The Hague, The Netherlands for U.S. exporters of domestic food and agricultural product. While every possible care was taken in the preparation of this report, the information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their Dutch customer (importer), who is normally best equipped to research such matters with local authorities, before any goods are shipped. Final import approval of any product is subject to the importing country's rules and regulations as interpreted by border officials at the time of product entry.

Introduction

Notes for using the Guide

The Netherlands, as a member of the EU, conforms to all EU regulations and directives. We therefore recommend that this report is read in conjunction with the EU Certification Guide produced by the US Mission to the EU in Brussels, Belgium: Gain Report Number: E47088 <http://www.fas.usda.gov/scripts/w/attacherep/default.asp>

Unfortunately for exporters, the EU's rules on certification for imports are complicated and are not always harmonized across Member States. This report lists the required export certificates for exports to The Netherlands, which are not yet harmonized.

Dutch Competent Authorities

Dutch Customs provides information of imports from which the Food and Consumer Product Safety Authority (VWA) select the lots for further inspection. The VWA is part of the Ministry of Agriculture, Nature and Food Quality (www.minlnv.nl). Regulation 2004/882/EC sets out the standards for control of compliance with the General Food Law (2002/178/EC).

Until January 1, 2007, the Plant Protection Service (PD) was responsible for inspection of crop imports into The Netherlands. As from January 1, 2007, the Netherlands Inspection Service for Agriculture (NAK, www.nak.nl), the Netherlands Inspection Service for

Horticulture (NAK Horticulture), the BKD (Flower Bulb Inspection Service, www.bloembollenkeuringsdienst.nl), and the KCB (Quality Control Bureau for Vegetables and Fruits, www.kcb.nl) took over the inspection tasks of the PD. The PD will have the authority over the NAK, NAK Horticulture, the BKD and the KCB.
